

Total surface	450 sqm	25650 euro
Width	15 m	
Length	30 m	
Height	6 m	
Offices space	150 sqm	

The offer refers to the design and production of the flat packed steel structure with assembling plans, 3D models and assembling accessories.

Other construction works can be contracted by local teams. These are common construction works which can be done by any company.

Packed steel structure	22500 euro
Assembling accessories	1350 euro
Technical documentation for the structure above ground	1200 euro
Calculation notes (if needed)	600 euro

The approximate price of the transportation of the structure is calculated by multiplying the number of kilometers (shown by [Google Maps](#) from Unic Rotarex® location to your location) with one euro/km.

The prices do not include taxes.

The payments must be done in Euro. 50% in advance and 50% at delivery at each stage of the project.

The delivery condition is FCA, according to INCOTERMS.

Execution term for technical documentation	15 days
Execution term for the structure	6 days

Unic Rotarex® team

- The offer is is valid for 30 days from the date of downloading from the site.
